## EDUCATION

### PhD in Computer Science

North Carolina State University

Jun. 2015 – Dec. 2018

Raleigh, NC

### MS in Electrical Engineering

North Carolina State University

Aug. 2013 – May 2015

Raleigh, NC

### BE in Electronics & Communication

Ramaiah Institute Of Technology

Aug. 2009 – May 2013

Bengaluru, India

## TECHNICAL SKILLS

**General Expertise:** Empirical Software Engineering, Machine Learning, NLP, Multiobjective Optimization, Distributed Computing, DevOps;

**Data Analytics:** Spark, Hadoop, Elasticsearch, S3, Weka, Sklearn, JMetal, etc. Visualization: Kibana, D3JS, Matplotlib, etc.;

**Cloud Computing:** AWS ecosystem: EMR, Apache Livy, Cloud Formation, AWS Lambda, Chalice, etc.;

**Programming:** Proficient: Python, Javascript, & R. Also familiar with: Java, Scala, C++, & Lua;

**DevOps:** Ansible, Vagrant, Travis, Jenkins, Docker, etc.

## SELECTED RESEARCH PROJECTS

### Planning in Software Engineering

NSF funded project in the RAISE Lab

Sept 2015 - Present

Raleigh, NC

- Developed a novel planning algorithm called XTREE to assist developers in software refactoring and code reorganization.
- Showed that XTREE can generate succinct and effective plans. Experiments showed that XTREE can reduce defects by more than 80% in several cases.

### Transfer Learning in Software Engineering

NSF funded project in the RAISE Lab

Sept 2015 - Present

Raleigh, NC

- Demonstrated the existence of a “Bellwether Effect” in several domains within software engineering.
- The *bellwethers* were shown to be a very effective baseline for transfer learning. Also showed that they are very easy to discover and usually outperform several state-of-the-art transfer learners in software engineering.

### Validating Industrial Text Mining

Industrial collaboration with LexisNexis

Sept 2015 - May 2017

Raleigh, NC

- Worked on validating large scale natural language processing pipelines for technology assisted review at LexisNexis.
- Demonstrated the usefulness of context specific ensemble learners and active learning for document classification.
- Demonstrated the effectiveness of several data preprocessing techniques such SMOTE for enhancing information retrieval.

## WORK EXPERIENCE

### Data Science Intern

LexisNexis

May 2017 - Aug. 2017

Raleigh

- 
- 

### Software Engineering Intern

LexisNexis

May 2016 - Aug. 2016

Raleigh

- 
-
